Principal's Message

The year 2024 marks a momentous milestone for our school as we celebrate our 50th Anniversary. Our Golden Jubilee was commemorated with great joy and success through a series of memorable events, including the Golden Jubilee Celebration Ceremony, Open Day, Celebration Dinner, VIP Talks, a presentation by an esteemed retired teacher, a variety show, a Mentorship Programme, and friendly matches among alumni and teachers. These celebrations provided a cherished opportunity for teachers, students, staff, and alumni to reconnect, reflect, and honour the rich history and memories we have built together over the past five decades.

As we embark on this new academic year, our school remains committed to excellence and innovation, with a focus on two key priorities:

1. Nurturing Self-Motivated and Visionary Learners

In an era of rapid technological advancement, particularly in the realm of artificial intelligence (AI), it is crucial for us to harness these tools to enhance the learning experience. AI offers tremendous potential to support education, from streamlining lesson preparation to reinforcing knowledge after class. We encourage our students to leverage AI resources, as they have the potential to significantly enhance study habits and learning outcomes. To facilitate this, our school proudly provides access to a range of resources from Sik Sik Yuen, the Hong Kong Jockey Club, and the IT Innovation Lab in Schools, all aimed at empowering students in their educational journey.

2. Empowering Students to Grow as Resilient and Responsible Citizens

Resilience is a vital attribute in navigating life's challenges. To this end, we are implementing programs designed to foster resilience and equip students with effective stress management strategies. Additionally, we are introducing Life-Wide Learning Days, during which students from each form will engage in diverse afternoon activities. These initiatives are intended to alleviate academic pressure and promote a balanced lifestyle. Furthermore, with a vision to cultivate our students to become responsible citizens, we have been encouraging our students to actively participate in community activities, contributing meaningfully to society and our country.

I am also delighted to share the outstanding achievements of our students in the 2025 Hong Kong Diploma of Secondary Education (HKDSE) examinations. Nearly 93% of our candidates met the basic entrance requirements for admission to publicly funded undergraduate programs (332A22), and approximately 86% received main round offers through JUPAS. Beyond academics, our students have excelled in various domains, earning accolades in sports, music, arts, and leadership. These accomplishments reflect our unwavering commitment to fostering whole-person development and nurturing well-rounded individuals.

I would like to express my deepest gratitude to our alumni and parents for their unwavering support and dedication to Ho Fung College. Their contributions and encouragement are invaluable as we continue to strive for excellence and shape the leaders of tomorrow.

50 Years of Excellence and Beyond

This year marked the 50th anniversary of Ho Fung College.

In addition to seminars and open access to various classrooms on different floors, there were over ten game booths designed by students and the Parent-Teacher Association set up in the playground. The school also invited students and alumni to showcase their talents on performance stage, creating a joyful atmosphere on campus.

Inspiring Success Through English

Here at Ho Fung College, we have been exploring every opportunity to create a stimulating English environment to prepare students for the future.

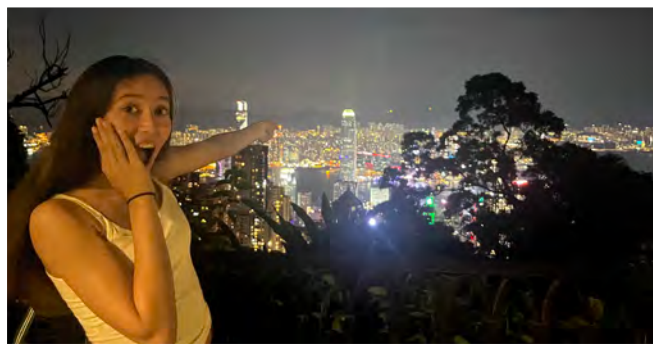

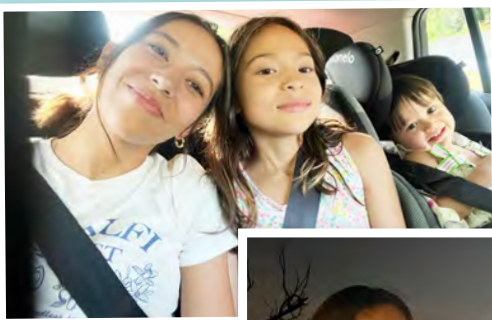

Our Exchange Student: Mirabelle Batavia Heuberger

Hi! My name is Mirabelle. I'm 15 years old, and I'm from Switzerland. I live in the biggest city in Switzerland, called Zurich. Switzerland is mostly famous for its beautiful nature, mountains, cheese, and chocolate.

I live with my parents and my three little sisters. My youngest sister is only 2 years old. I was born and raised in Switzerland, but my mother is actually from Indonesia, which makes me half-Indonesian. I can also speak the language. A few years ago, I even lived there for a year.

My hobbies are playing the violin, guitar, and piano, reading books, crocheting, and in winter, I go snowboarding almost every week.

I really love Hong Kong. It's an amazing city because it combines modern skyscrapers with traditional culture. The food is delicious, and the city is full of energy day and night. I also like that Hong Kong has beautiful nature spots like mountains and beaches right next to the busy city. I really look forward to spending a year here!
